Corresponding authors should include a note about the beliefs or commitment of any reader, contain nothing which might imply that one individual is superior to another on the grounds of age, gender, race, ethnicity, culture, sexual orientation, disability or health condition, and use inclusive language throughout. Elsevier collaborates with a number of repositories to link articles on ScienceDirect with relevant repositories, giving readers access to underlying data that gives them a better understanding of the research described. There are different ways to link your datasets to your article. 4. Reference management software Most Elsevier journals have their reference template available in many of the most popular reference management software products. Significant changes to the article as accepted for publication will only be considered at this stage with permission from the Editor. Editors are not involved in decisions about papers which they have written themselves or have been written by members or colleagues or which relate to products or services in which the editor has an interest. If you use any symbol or unit that may not be generally recognized, please include an explanatory footnote the first time it is used, to help the referees, editors and readers. To facilitate reproducibility and data reuse, this journal also encourages you to share your software, code, models, algorithms, protocols, methods and other useful materials related to the project. Below are a number of ways in which you can associate data with your article or make a statement about the availability of your data when submitting your manuscript. The Editor is responsible for the final decision regarding acceptance or rejection of articles. Role of the funding source You are requested to identify who provided financial support for the conduct of the research and/or preparation of the article and to briefly describe the role of the sponsor(s), if any, in study design; in the collection, analysis and interpretation of data; in the writing of the report; and in the decision to submit the article for publication. If the funding source(s) had no such involvement, it is recommended to state this. Please note that your article will be reviewed again by the new journal, Tiff (or JPEG). Composites Part A: Applied Science and Manufacturing publishes original research papers, review articles, case studies, short communications and letters from a wide variety of sources dealing with all aspects of the science and technology of composite materials, including fibrous and particulate reinforcements in polymeric, metallic and ceramic matrices, and 'natural' ... Engineered wood, also called mass timber, composite wood, man-made wood, or manufactured board, includes a range of derivative wood products which are manufactured by binding or fixing the strands, particles, fibres, or veneers or boards of wood, together with adhesives, or other methods of fixation to form composite material. The panels vary in size but can range upwards ... Composites Part A: Applied Science and Manufacturing publishes original research papers, review articles, case studies, short communications and letters from a wide variety of sources dealing with all aspects of the science and technology of composite materials, including fibrous and particulate reinforcements in polymeric, metallic and ceramic matrices, and 'natural' ... Introduction Jurnal Kejuruteraan (Journal of Engineering) is published by UKM Press (Universiti Kebangsaan Malaysia Publisher). It is a medium to publish scholarly articles by the research community all over the region. It acts as a forum for the publication of review, research and technical papers in all engineering and built environment related areas (Chemical, Civil, LPAC develops advanced processes for thermoset and thermoplastic composites, based on a fundamental understanding of flow and interfacial mechanisms. Focus is also put on smart composites, bioinspired composites, UV-curable composites, nanostructured materials, multilayer films, functional surfaces and life cycle engineering. Composites Part A. This Authora document template can be used to prepare documents according to the citation style and authoring guidelines of Composites Part A. Note: the citation style and format (paragraph spacing, line numbers, etc.) will be applied upon document export, making it easy for you to switch from one journal to another. Welches Flugmodell ist das Richtige für mich? In der Sparte Flugmodellbau gibt es eine Vielzahl unterschiedlicher Modellvarianten. Vom Wurfgleiter über Segelflugmodelle, Slow- & Parkflyer, Wasserflugzeuge, Kunstflugmodelle, Warbirds & Jets bis hin zum mafStabsgetreuen Zivilflugzeugen finden Sie bei uns alles was das Herz eines RC-Piloten begeht. The Rutan Model 76 Voyager was the first aircraft to fly around the world without stopping or refueling. It was piloted by Dick Rutan and Jeana Yeager.The flight took off from Edwards Air Force Base's 15,000 foot (4,600 m) runway in the Mojave Desert on December 14, 1986, and ended 9 days, 3 minutes and 44 seconds later on December 23, setting a flight endurance record.
