
assessment and peer evaluation, co-creative approaches allow students to become subjects, not only objects, of their own evaluation in the community's commitment. Davis, CA: Imagine America, 2018. The web. Bass, Randy and Heidi...

The shortest essays are often suitable for evaluating students' understanding of a topic, and longer analytical or creative. The longest essays are suitable for evaluating students' ability to write an extended piece of writing on a particular subject. The forms of essays can vary widely, depending on the level and type of writing. The instructors commonly assume that students can write essays on a variety of topics, and they often use essays as a form of assessment.

Exams are a form of testing that measures a student's knowledge and understanding of a subject. Exams can be used to assess a student's ability to recall information, apply knowledge, and evaluate information. They are often used as a form of assessment because they can provide a standardized and objective measure of a student's knowledge.

Assignments are another form of assessment that allows students to demonstrate their understanding of a subject. Assignments can include writing assignments, research assignments, and other forms of work that require students to apply their knowledge and skills. Assignments are often used as a form of assessment because they allow students to demonstrate their ability to think critically and analyze information.

Portfolios are a form of assessment that allows students to compile their work over a period of time. Portfolios can include assignments, projects, and other forms of work that demonstrate a student's ability to think critically and analyze information.

In conclusion, the forms of assessment can vary widely, depending on the level and type of writing. Exams are a form of testing that measures a student's knowledge and understanding of a subject. Assignments are another form of assessment that allows students to demonstrate their understanding of a subject. Portfolios are a form of assessment that allows students to compile their work over a period of time.
